The taste of quality worldwide

BRAVILOR BONAMAT

Speed combined with ease of use

A wide variety of hot drinks, ease of use and proven technology; whether you want large or small quantities of coffee, the Bolero series of instant beverage machines offer the perfect solution for every location.

The Bolero series from Bravilor Bonamat generates a professional appearance thanks to the use of durable materials such as stainless steel. Various hot beverages and hot water can be delivered quickly at the push of a button!

Bolero: for both cups and decanters

- Clear menu with LED display
- Use of durable materials
- Closable canister outlet
- Programming options for each drink
- Unique mixing system ensures perfect flow of ingredients
- Easy to clean thanks to the removable ventilation housing
- Easy to program
- Quick and user-friendly

■ Bolero

The Bolero series from Bravilor Bonamat features speed and efficiency. Pressing a single button delivers a cup of coffee, cappuccino or hot chocolate (depending on your chosen model) in next to no time. A separate tap also provides hot water for tea or soup.

User-friendliness is the key feature of the Bolero series. The Bolero is available in *Mysterious Grey* and *Stardust White*, so it fits perfectly into any interior colour scheme.

The Bolero 1 and 2 machines include 1 or 2 transparent, closable canisters which are convenient for filling with ingredients.

- Bolero 1 has 1 large canister e.g. for coffee or cocoa.
- Bolero 2 has 2 canisters e.g. for coffee and topping, as required for cappuccino.
- Both models have a separate button for hot water.
- Optional: pedestal to allow quick filling of decanters.

◀ Transparent canisters

Clear and user-friendly. The Bolero Turbo (XL) can even take extra-wide 5.3 litre canisters.

■ Bolero XL

Would you like to expand the range of choice to eight hot drinks? With an additional tap for hot water? Then opt for the Bolero XL.

This machine has 3 or 4 transparent canisters offering a wide range of drinks. One is for coffee, of course, the others allow you to serve cappuccino, café au lait, moccachino and hot chocolate.

The unique mixing systems ensure a perfectly reliable flow of the instant ingredients, thus eliminating any risk of build-ups. The machines in the Bolero series signal when the drip-tray is full, and offer an adjustable energy saving mode to reduce your use of energy. The Bolero XL models are available in *Mysterious Grey* and *Stardust White*. The Bolero XL is also available with an optional separate cold water unit for serving glasses of cold water.

- 8 drinks + hot water
- 3 or 4 canisters e.g. for coffee, topping and cocoa
- Optional: separate cold water unit
- Optional: coin mechanism

■ Bolero Turbo (XL)

The Bolero Turbo and the Bolero Turbo XL are the high-volume machines in this series. These models can fill decanters with coffee and hot chocolate. They can even fill two decanters simultaneously.

The Bolero Turbo has 2 to 4 canisters and the XL version has 3 to 6, depending on the model of your choice.

All Bolero machines —from small to large— have a descaling signal, a rinsing program and a rinsing function on the control panel itself. The day and cumulative counters make it easy to keep track of usage.

No matter whether you prefer your drinks by the cup or by the decanter, the Bolero series offers the perfect solution!

- 8 drinks + hot water
- For large quantities; fill decanters quickly
- 400V version can prepare more than 950 cups of coffee an hour!

◀ Coin mechanism

The Bolero XL is also available with a built-in coin mechanism.

◀ Vacuum flasks

Double-walled vacuum flasks keep your coffee in perfect condition. Available in 1, 1.2, 1.5 and 2 litres.
